NB! Directly south of the Competition area is the [embargoed area](#) for WOC 2017.

### Terrain

Elva city and its surrounding forests, Udernapalu ja Illipalu flatlands. Inside and around the city is a thick grid of roads, streets and tracks. In Illipalu and Udernapalu is a grid of rides but there are less roads and smaller paths. The density of the forest is variable. There are open forests and thickets. Outside the city there are overgrown paths and there are fallen trees. Land forms. Mainly flat or slightly wavy. Between the flat areas flows the Elva river, which is surrounded by its valley (slope 10-15m) and the valleys around Illi and Pulga rivers (slopes 5-10m). There are mapped plains where hills are up to 20m high.
