Previous map: <https://orienteerumine.ee/kaart/kaartshow.php?Kood=2014071>

Terrain: City of Elva, city parks and park areas with forest. There are lots of different roads and footpaths. Runnability and visibility of the forest varies mostly from good to very good. A few natural open clearings and what were once clearings. Relief forms are mostly large and flat, with few smaller forms.

Pay attention to: roads, lakes, ponds and wide motorway ditches.

### **Day 2 and 3: Vitipalu** (the terrain of WOC2017)

Mapper: Kalle Kalm. Map scale: 1:10000. Height equivalence 2,5m. Fieldwork was done between 2014-2015, corrections: 2020.

Previous map: <https://orienteerumine.ee/kaart/kaartshow.php?Kood=2003004>

Terrain: The glacial kame field with no bogs, situated between the Elva River and the Ilusa stream and the flat area (mostly farmed forests) between the Ilusa and Laguja streams. Large bogs in the floodplains of the two streams. Runnability and visibility vary from good to very poor, with occasional thickets of elderberry and patches of ferns and other dense groundcover plants. Many storm-felled trees. The bogs have turfs and are the beaver's habitat, and it is recommended that that they are crossed on natural bridges and beaver dams. A dense network of roads and forest divide trails. The forest divide trails are often poorly identifiable and runnable.

Maps are in size A4 and inside open plastic bags.

## START PROCEDURE

Individual start every day by previously randomly selected starting order. Prestart is 3 minutes. Each runner's SI-card gets checked 3 minutes before the start by the organizers. 2 minutes before start competitors get control descriptions. Control descriptions are only for start 1 and 2. Transparent duct tape and scissors are provided by organisers. Organisers don't provide assistance with attaching control descriptions. 1 minute before the start, competitors go to stand next to their class' map-bucket. After start signal, the competitors may take their map and start their race. A marked route goes from start to starting triangle. Passing

the starting triangle is compulsory. Warm-up clothing left to starts are brought back to the event centre by the organizers.

**Marked course for children.** On the marked course, the competitors receive the map 1 minute before start. There is an instructor in the start, also the parents/accompanying persons can instruct the child. The course is for children only, parents are not allowed on the course.

**Open marked course.** We ask everyone who wants to accompany their child to register in the open marked course class. Registration can be made on [osport.ee](http://osport.ee) or in the information tent).

Marked course and open marked course are open every day from the first start for 1.5h (ex. The first start of the day is at 17.00 and the course is open until 18.30.

## **OPEN COURSE**

On 14th of August it is possible to participate in "Tartu orienteerumisneljapäevak" without pre-registration.

On 15th and 16th of August, it is possible to participate in open course without pre-registration. Registration to open courses is in the competition centre information tent and starting is possible during its opening hours. Open courses have length of 3 and 5 km. Open course costs 10 eur.

## **FINISH PROCEDURE**

Time will be registered by punching the control on the finish line. Competitors who had to mechanically punch the controls, need to show these markings on their map to the organizers. Competitors, who rented SI-cards from the organizers, need to return these on the last day right after their results are read from the card at the finish line. Each competitor gets a paper with their SI-card results after leaving the finish area. Competitors who have quit their race, need to pass the finish line. If that is not possible, information desk in the event centre needs to be notified with the competitor's name. All maps are gathered until the end of the starts.
